FALL - 1942

Native Ornamental Plants
Trees, Shrubs, Ferns, Vines, Orchids
and
Blue Ridge Wildings

NOTE TO CUSTOMERS

-- o --

OUR LOCATION

Is in the Heart of the Blue Ridge Mountains, "the most beautiful mountain region on the continent," in western North Carolina, nearly 4,000 feet above sea level. My permanent headquarters is Ashford, McDowell County, North Carolina, on the scenic Clinchfield Railroad.

QUOTATIONS

This list cancels all previous offers. Do not order from old catalogues.

All offers of stock are made subject to conditions beyond my control.

PACKING AND GRADING

Will be done in the most careful way. Orders will be packed to insure arrival in good condition. Shipments will be delivered to the local freight, express, or post office at prices named in this catalogue. Packing will be charged at cost on charge orders. All shipments delivered at cost and risk of customer. Certificate of inspection attached to all shipments. We specialize in carload lots.

REMITTANCE OR REFERENCE

Should accompany orders from unknown correspondents. Discount of 10% on cash orders.

All bills due and payable 30 days from date of invoice. Interest charged after 30 days.

SHIPPING INSTRUCTIONS

Should always be given fully, unless you prefer to leave to our best judgment. In this we assume no risk, our responsibility ceasing upon receipt of signed bill of lading by forwarders.

All claims for damage in transit must be handled by consignee.

CLAIMS

All claims for errors must be reported upon receipt of goods and will be rectified promptly.

Unless this is done, we can accept no responsibility of any kind.

No GUARANTEE is made that stock will grow, whether planted by us or not. As we have no control over after-treatment or weather conditions, the purchaser must assume all risks after stock leaves our Nursery in good condition.

In no case shall we be held for damage exceeding original purchase price and only to this extent when proper proof is furnished that stock has been wrongly labeled.

All orders are accepted and filled on these terms, unless otherwise agreed IN WRITING.

FALL SHIPPING SEASON

Begins in August and extends usually till about December 1, according to weather conditions.

SPRING SHIPMENTS

are forwarded according to customers' wishes and subject to conditions beyond our control, March 1 to May 15. PLEASE ORDER EARLY.

HARDY NATIVE HERBACEOUS PERENNIALS

This list contains a variety of Herbaceous Plants furnishing a succession of bloom from early spring to late autumn, all having been tried out with success in cultivation. The height indicates the approximate height of each plant as found in wild state. The time of blooming naturally depends on locality.

LEAF MOLD — NATURE'S PLANT FOOD

This is the food nature provides for Azaleas, Rhododendrons, Kalmias, Leucothoe, Andromedas, Hemlocks, Pines, Ferns Lilies, Trilliums, Native Orchids, and Perennials. Leaf-Mold gives the proper acid elements to the soil, insuring the best root-systems, foliage, and flowers. Valuable for old or new lawns. Leaf-Mold is collected from old Rhododendron beds, without artificial or chemical treatment.

200 lbs. \$2; ton \$12.50; carload (20 tons) \$185

HARDY NATIVE DECIDUOUS TREES AND SHRUBS

Cultural Directions for Azaleas, Broad-leaved Evergreens, and Similar Plants

Azaleas, Kalmias, Leucothoe, Pieris and Rhododendrons are acid-soil plants and will not succeed well in limestone soils. A deep, porous soil is essential. The ground should be excavated to a depth of about 2 feet, working in leaf-mold, humus, or well-rotted stable manure. This mixture must be worked in carefully and packed tight around the roots. Fill in the excavation with rotted sods, muck or peat soil, mixed with a small quantity of sand.

The plants should be set the same depth as in the nursery, which is shown by the earth-line near the base. After planting, mulch with several inches of leaves or light litter, allowing this mulch to remain around the plants, and renew it annually in the autumn. A thin covering of rich soil may be used to advantage in holding mulch in place and to assist in the decomposition. The mulch also tends to keep the soil cool in summer and protects against freezing in winter. If these simple instructions are observed, your planting of Broad-leaved Evergreens will be entirely successful.

For use in beds of Rhododendrons, Azaleas, and other similar plants we recommend the following: Galax, Shortia, Ferns, Orchids, Lilies, Trilliums, Cimicifugas, Iris; Polygonatums; Sanguinarias, and most of our other perennials.

SPECIAL COLLECTIONS OF FOUNDATION PLANT MATERIAL

— o —

These collections are valuable to home-owners who are not entirely familiar with Broad-leaved Evergreens. The plants are from my regular stock, and I feel sure they will please you when they arrive—and for many seasons thereafter.

— o —

SPECIAL COLLECTION No. 9

AZALEA VASEYI. Pink-shell Azalea. A distinct and remarkably free-flowering hardy shrub of extreme rarity and beauty. The flowers are an exquisite shade of pink or rose and appear in profusion before the leaves unfold in early spring. In autumn the foliage assumes deep rich shades of red and crimson.

AZALEA CALENDULACEA. Flame Azalea. A native species. Color varies from orange to canary.

AZALEA CANESCENS. Piedmont Azalea. Pink and rose.

AZALEA NUDIFLORA. Pinxter Bloom. Deep pink flowers.

Five plants of each. 18 to 24 in. **\$22.75**
(20 plants in all), for only

— o —

SPECIAL COLLECTION No. 10

RHODODENDRON CAROLINIANUM. Carolina Rhododendron. The earliest flowering variety. Beautiful light to deep pink blossoms.

RHODODENDRON CATAWBIENSE. Catawba Rhododendron. Vigorous, hardy, free blooming. Color rosy purple.

RHODODENDRON MAXIMUM. Rosebay. Pinkish white flowers in July. The grandest of all Rhododendrons

Five plants of each. 18 to 24 in. **\$16.65**
(15 plants in all) for only

— o —

SPECIAL COLLECTION No. 11

KALMIA LATIFOLIA. Mountain Laurel. A lovely native, with pink or rose flowers.

LEUCOTHOE CATESBAEI. Drooping Leucothe. Flowers creamy white, drooping and showy.

PIERIS FLORIBUNDA. Mountain Andromeda. White flowers in clusters in April and May.

Five plants of each. 18 to 24 in. **\$15.55**
(15 plants in all) for only

LEAF MOLD — NATURE'S PLANT FOOD

This is the food nature provides for Azaleas, Rhododendrons, Kalmias, Leucothe, Andromedas, Hemlocks, Piness, Ferns, Lilies, Trilliums, Native Orchids and Perennials. Leaf-Mold gives the proper acid elements to the soil, insuring the best root-system, foliage, and flowers. Valuable for old or new lawns. Leaf-Mold is collected from old Rhododendron beds, without artificial or chemical treatment.
